

Explore one of the world's top hobbies – Stamp Collecting

Stamp collecting is the collecting of postage stamps and related objects such as covers (envelopes or packages with stamps on them). Worldwide it is estimated that there are 200 million collectors.

Countries around the world issue thousands of different stamps in a year commemorating many historical events historical persons, nature, technology, art -- almost anything you can think of.

The hobby can reflect your interests and doesn't cost a lot of money.

Our club has been in existence for more than 75 years and we would love to have you join us at one of our next informal meetings.

We can help you start a collection, learn about stamp collecting and add to your current collection.

Questions?

Our president would be glad to speak with you
